Discerning Standing Chair Users Choose the Redman Chief 107-ZRx!

- The Redman Power Chair is proudly made in the USA.
- Unlike other power chairs, the Redman Power Chair delivers power recline, tilt, and 90-degree leg elevation standard – and the legs fully articulate independently.
- Uneven streets and rough terrain are easily conquered by the Redman chair with its 3.5" ground clearance and superior maneuverability.
- The Chief 107-ZRx supports more weight than the competitors (up to 350lbs with HD construction).
- Redman offers an unprecedented warranty of parts, labor AND wear components.
- Redman has been perfecting ONE chair for 35 years to deliver this best-in-class positioning power chair.
- The Chief 107-ZRx is more easily covered by insurance because of the unique way the chair functions with its multi-patented features and components. When approved for a Redman, the stand feature is always included!
